

MONETIZE YOUR SOCIAL MEDIA CONTENT

As an advertiser, you know that social media is all about engaging visual content. With Kiosked, you can easily turn your images and videos on Facebook and Twitter into interactive storefronts. Create a seamless shopping experience for your fans by letting them instantly discover and buy products directly from your branded images and videos. [Enhance consumer engagement and monetize your social media content.](#)

RESPONSIVE DESIGN

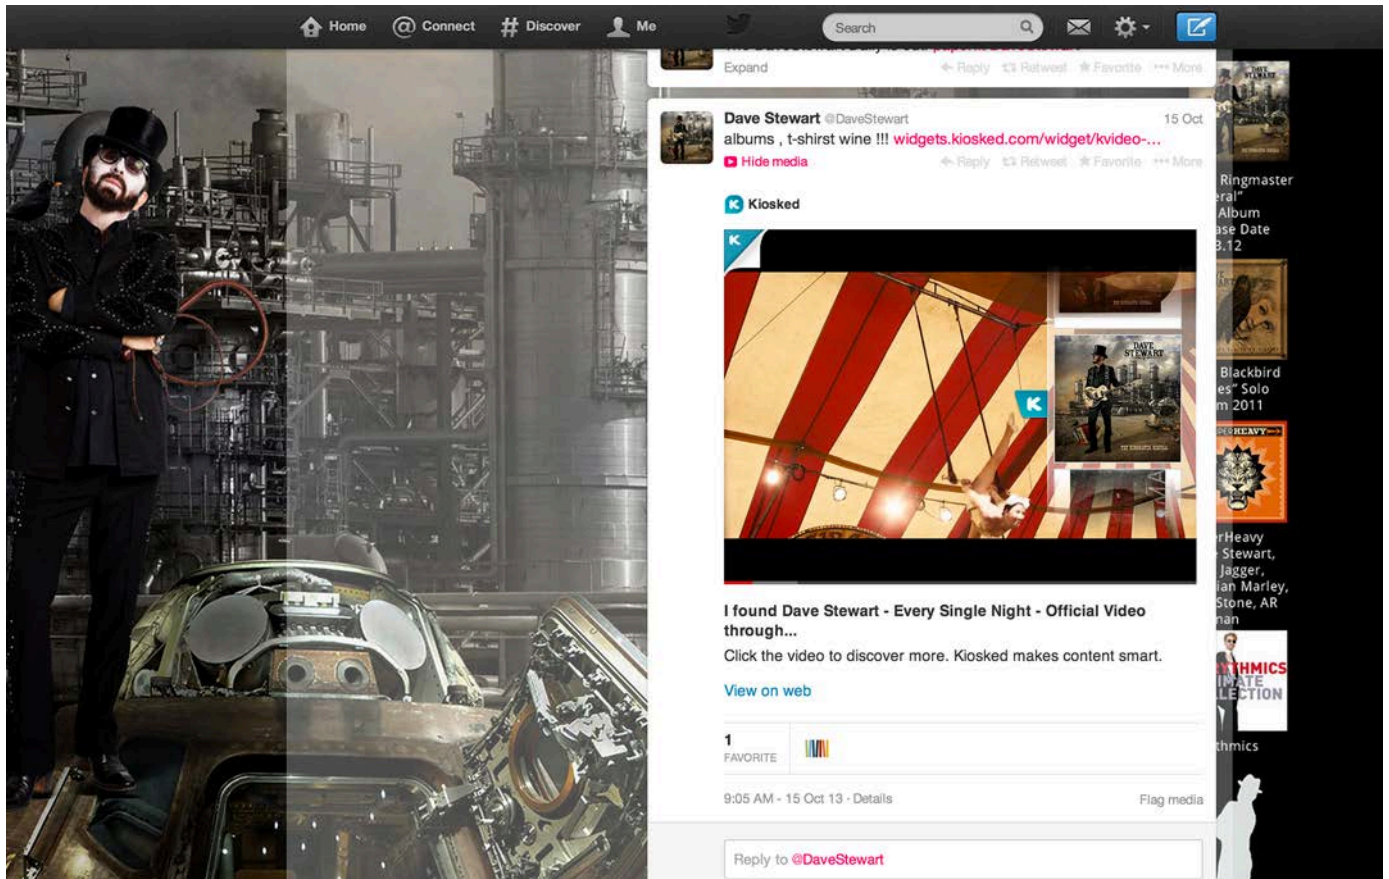

Your fans use social media on different devices throughout the day. Kiosks have been designed to ensure an optimal user experience on every type of screen. What's more, kiosks are location-aware and automatically updated. Consumers always see the product information in their own language and currency, and they only see products that are available for shipping.

INCREMENTAL REVENUE

Your fans like and share your images and videos on Facebook and Twitter. You can now enrich their experience by letting them instantly buy relevant products directly from these images and videos. Turn your social media content into an additional revenue stream. Kiosked offers a revolutionary new way to convert your fans into buyers by turning advertising into a non-intrusive service for them.

BRAND ENGAGEMENT

To drive even deeper brand engagement on social media, you can match the design of your kiosked images and videos with the look and feel of your brand. Make it easy for your fans to engage with your brand on the increasingly visual web. What's more, when your fans share your kiosked images and videos with their friends, the products are also shared.

LAUNCH IN 60 SECONDS

It is fast and easy to kiosk your images and videos. Start by creating your first products manually or import them by integrating your product feed with Kiosked. Then upload your images and videos to your Kiosked dashboard. Now you can simply drag and drop your products into your images and videos.

Once you have added all of the products that you want, simply copy the link that is generated in the Kiosked dashboard and publish it on Facebook or Twitter. When your fans share your kiosked images and videos with their friends, the products are also shared.

To build and extend your brand on social media, you can match the design of kiosked images and videos with the look and feel of your brand. Branded Kiosks are available with the Kiosked PRO and PRO+ accounts.

What's more, with Kiosked's advanced analytics, you can see how consumers engage with your social media content and know exactly which products drive the most engagement. Kiosking is fun. Try it yourself today!
