

GAIN INSIGHTS WITH RICH ANALYTICS

Kiosked Analytics gives you simple yet powerful tools to analyze how consumers engage with your images, videos and products across multiple media and devices. Real-time reports uncover insights into consumer online behavior that help you deliver the content your consumers want to interact with. [Make informed decisions and reach your business objectives with a thorough understanding of your content performance.](#)

KNOW YOUR AUDIENCE

For the first time, you can explore and understand the whole consumer journey from the first impression to the purchase decision. You will know exactly what content captures the attention of your fans, inspires them to discover more and drives them to shop and share.

MEASURE RESULTS

Extensive performance metrics, such as engagements, shares and sales, are collected for all your images and videos. Aggregated reports enable you to measure the performance of your visual content and track the effectiveness of your campaigns. Optimize your online activities based on meaningful insights.

REAL-TIME UPDATES

Kiosked real-time Analytics allows you to instantly see which content drives higher consumer engagement at any time. This empowers you to make timely targeted adjustments to your campaigns and closely monitor how your consumers react.

HOW DOES IT WORK?

You have access to Analytics immediately after you have signed up for a Kiosk account. Data starts coming in when your first kiosks are published online.

Easily customizable reports translate data into meaningful insights. With just a few clicks you can view data from different angles and have instant access to the answers you need.

You can build aggregated reports that measure the overall performance of your content within a selected date range. Media specific reports let you track the performance of each individual image, video or application.

You can go even deeper in the analysis of your content with the ability to view the performance of your kiosks that contain products. Kiosk arms you with the tools to know exactly what products your consumers are interested in. What's more, you can see your reports visually and export graphs. Try it yourself now!

WHAT IS KIOSKED?

Kiosk is the leading platform for enabling Smart Content. Kiosk turns any online content, images, videos and applications into interactive and viral
